Mission House · Malaclete · Sollas · Isle of North Uist · HS6 5BX

Welcome. This handbook lives both in the file near the dining table and on the website. Dip in as you need it. Anything missing or unclear, please let us know so we can add it for the next guests.

1. Welcome

Thank you for choosing Mission House for your Hebridean escape. The house looks straight across the tidal sands to the island of Vallay — a view that changes every few hours with the tide and the light. In the space of a morning you can walk an empty beach, spot sea eagles, cross to an uninhabited island on foot, and be back in time for tea.

We hope you have a wonderful stay.

— **Joe**, Mission House

2. First things first

Wifi network	BT-5PF9Z3
Wifi password	MHKUxTKya3NEG9
Wifi — scan to join	
Heating — turn up / down	Hive app or Hive thermostat in hallway. Minimum is set to 13 °C — please don't lower it below 12 °C (insurance condition). Set comfortable temperature normally 18–20 °C.
Hot water	On the Hive timer, can be boosted by pressing the top button on the Hive thermostat in the hall — unvented Megaflo cylinder, mains-pressure.
Bin day	Three kerbside bins (general (incl food) / plastics & cans / cardboard & paper). Put the right bin out the evening before collection. Full 2026 schedule in Rubbish & recycling below.
Emergency	Dial 999 . Also see the “Emergencies” section below.

3. Compulsory information

Required by our Short-Term Let Licence with Comhairle nan Eilean Siar.

Licence & insurance

STL Licence number	ES01445F (issued 2 Oct 2025, Comhairle nan Eilean Siar)
Licence holder	Ohana Capital Ltd (Co. No. 10836198)
Maximum occupancy	6 guests across 3 bedrooms — this is the licensed maximum. No additional guests, parties, or overnight visitors beyond this number.
Public liability insurance	£5 million (Great Lakes Insurance UK, arranged via Townergate)

24/7 emergency contact

If something goes wrong that isn't a 999 situation — leak, power cut, lockout, heating failure, anything urgent — please call in this order:

Amy (local contact, Sollas)	+44 7411 114 931
Joe (owner)	+44 7356 232077
Kevin (local contact, Sollas)	+44 7789 564695
Email (non-urgent)	rental@missionhouse.co.uk

Where things shut off

If there's a leak, fire, or electrical fault, you may need to isolate services quickly:

Service	Location	Notes
Mains water stopcock	Under the kitchen sink	Turn clockwise to close.
Consumer unit (fuse box)	Entrance porch — high up on the wall	Main switch at the top — flip down to cut all power. Individual RCBOs for each circuit.
Oil tank isolator	On the drive, beside the oil tank	Only touch if advised by us or in an emergency — the boiler will stop.
Boiler on/off	In the cupboard under the stairs, off the kitchen	Don't adjust temperature settings — use the Hive thermostat instead.

Water safety (legionella)

- **If the house has been unused for two weeks or more before your stay** (which can happen in winter), please **run the hot and cold taps, and both showers, for two minutes each** before using them. This flushes the stored water and is sensible belt-and-braces hygiene for any house with a hot-water cylinder.
- If you're not sure how long the house has been empty, feel free to ask — or just do it anyway; it takes five minutes.

Noise & neighbours

- The houses either side are **permanent homes**, not other holiday lets. Please be considerate, especially late evening.
 - No parties or events. The house is let for peaceful family and small-group stays only.
-

4. Travel days — arriving and leaving

- **Check-in:** from **4 pm** on arrival day.
 - **Check-out:** by **10 am** on departure day. (Changeover is Friday.)
 - **On arrival:** the house key is in the **lockbox beside the front door**. The access code is **1601**.
 - **On departure:** please return the key to the same lockbox and scramble the dials.
 - **Before you leave:**
 - Strip beds you've slept in (leave linen in the bedroom).
 - Empty the fridge of anything perishable.
 - Leave the log burners as you found them.
 - Wash up and put everything away.
 - Take rubbish out to the bins.
 - Close all windows, lock both doors.
 - **Put the key back in the lockbox and scramble the dials** so the code isn't left exposed.
-

5. How things work

Wifi

- BT broadband. The BT Hub lives in the **living room** (blinking lights are normal).

- SSID and password are printed on a sticker on the **underside of the hub** and also written in this handbook.
- Signal reaches all rooms; a bit weaker upstairs but usable.
- If the wifi drops: (1) wait two minutes — it usually recovers; (2) if not, unplug the hub from the wall, wait 30 seconds, plug it back in.

Heating — Hive

- The Hive thermostat is **in the hallway**, near the front door.
- Push the dial to wake it, then turn to adjust the target temperature. The boiler kicks in when the room temperature is below target.
- The Hive app (if you have it set up) can control the system remotely, but you don't need the app — the thermostat does everything.
- **Please don't turn the heating off entirely.** We run a 13 °C minimum year-round as an insurance condition against freeze damage. If you're warm, just turn the target down; the system will look after itself.
- No underfloor heating — all rooms are warmed by radiators (controlled by the Hive and can be adjusted by turning the thermostat on them).
- Full how-to is in **Hive thermostat — quick guide**, the next section.

Wood burners — lounge and kitchen

- **Firewood** should be **beside the log burner**. If you use the fire, please leave it set ready for the next guest.
- If you run low, more is available locally — ask at the Sollas Co-op or Bayhead Stores.
- Firelighters, matches, ash pan tools by each burner.
- Basic procedure:
 1. Make sure the **air vent at the bottom is fully open** and the flue damper (if fitted) is open.
 2. Place 2–3 firelighters on the firebed, build a little tepee of kindling around them, light, close the door but leave the vent wide open.
 3. Once the kindling is burning well (2–3 minutes), add a small log, then progressively larger logs.
 4. Once the fire is established, you can close the air vent down gradually — but not fully, or the fire will smoke and the glass will blacken.
- **Fuel:** dry seasoned hardwood only. No household rubbish. No wet driftwood (salt damages the flue).
- **Ash:** leave a thin layer of ash in the bottom between fires — the burner lights better. Empty the pan when it's getting full, into the **metal ash bucket** (not straight into the bin — embers can stay hot for days).
- **Going to bed:** let it burn down naturally. Don't close the air vent fully.
- **The carbon monoxide alarm** in the kitchen is there for a reason — if it ever sounds, open windows, leave the house, and call us.

Hot water — Megaflow

Unvented cylinder, mains pressure. All taps hot. Nothing for you to do — it's always on and heated to 60 °C.

TV / sound

- **Samsung Smart TV** in the lounge — Freeview built in. Remote on the coffee table.
- **Soundbar / Blu-ray** — additional remotes. If the sound isn't coming out of the soundbar, check the soundbar is switched on (it has its own remote / power button).
- Streaming: the TV supports Netflix, Prime, iPlayer, etc. If you want to use your own accounts, please **log out before you leave** — Feel free to use the BluRay discs and leave for next guests.

Kitchen appliances

- Quick guides for the espresso maker, air fryer and washer-dryer are beside the appliances, together with this handbook.
 - Manufacturer manuals, where we have them, sit **on top of the appliance itself**.
-

6. Hive thermostat — quick guide

How to boost heating and hot water. Thermostat is on the hallway wall, near the front door.

Parts of the thermostat

Control	What it does
Hot Water Boost	Small button on the TOP-LEFT . One press = 1 hour of hot water.
Heating Boost	Small button on the TOP-RIGHT . One press = 1 hour of heating at 22 °C.
Dial	Big central dial. Push once to wake the screen. Turn to change the target temperature.
Screen	Shows the current room temperature and target. Goes blank after a few seconds — push the dial to wake it.
Back	Curved-arrow icon, bottom-left. Go back one screen, or cancel a boost early.
Menu	Three-lines icon, bottom-centre. Opens the thermostat menu (schedule, hot water, etc.).
Confirm	Tick icon, bottom-right. Confirm a selection.

Boost the heating

One press of the top-right **HEATING BOOST** button turns the heating on for an hour. The target jumps to 22 °C by default — turn the dial while the boost is running to pick a different target.

Action	Result
1 press	Heating on for 1 hour at 22 °C
More time	Press again to extend (cycles 1 → 2 → 3 → 6 hours)
Change temp	Turn the dial while the boost is running to set a different target
Cancel early	Press BACK (bottom-left)
When it ends	Returns automatically to the normal schedule — nothing to undo

Boost the hot water

The house has a Megaflow hot water cylinder (separate tank), so hot water has its own boost. One press of the top-left **HOT WATER BOOST** button heats the tank for an hour.

Action	Result
1 press	Hot water on for 1 hour
More time	Press again to extend (cycles 1 → 2 → 3 → 4)

	→ 5 → 6 hours)
Cancel early	Press BACK (bottom-left)
When it ends	Returns automatically to the normal schedule

Good to know

- The heating minimum is set to **13 °C year-round** as an insurance condition. Please don't lower it below 12 °C.
 - Oil-fired boiler feeding radiators and the Megaflow hot-water cylinder — no gas supply.
 - The Hive app works the same way (Boost tile on the home screen). You don't need the app — the thermostat does everything.
 - If the screen is blank, push the dial once — it sleeps after a few seconds.
-

7. Septic tank — please read

Mission House is not on mains drainage. Everything you flush goes into a **private septic tank** in the garden, which is emptied periodically. To keep it working:

- **Do flush:** toilet paper only.
- **Don't flush:** wet wipes (even "flushable" ones), sanitary products, cotton buds, tampons, condoms, nappies, dental floss, cooking fat, paint, strong chemicals, hair. There's a lidded bin in each bathroom for everything that isn't toilet paper.
- **In the sink:** no cooking oil or fat (let it cool in a jar and bin it). Normal washing-up liquid is fine. Please use detergent sparingly in the Bosch washer-dryer too — heavy foaming harms the tank.

If you notice slow drains, gurgling, or a smell outside, please let us know straight away.

8. Water

- Cold water is mains-fed from Scottish Water. Perfectly safe to drink.
 - Hot water is heated to 60 °C — treat taps with care.
 - The water is **soft** (low mineral content) so soap lathers very easily and you'll use less shampoo / detergent than you're used to on the mainland.
-

9. Rubbish & recycling

We have **three kerbside bins**, collected by Comhairle nan Eilean Siar on different days:

Bin	Day	Frequency
General waste (including food scraps — there's no separate food caddy)	Thursday	Fortnightly
Cardboard & paper	Monday	Every 4 weeks
Plastics & cans	Monday	Every 4 weeks (offset 2 weeks from paper)

Please put the right bin out kerbside the evening before — collections start early.

2026 collection calendar

Month	General (Thu)	Paper / card (Mon)	Plastic / tin (Mon)
Jan	2, 15, 29	19	5
Feb	12, 26	16	2
Mar	12, 26	16	2, 30
Apr	9, 23	13	27
May	7, 21	11	25
Jun	4, 18	8	22
Jul	2, 16, 30	6	20
Aug	13, 27	3, 31	17
Sep	10, 24	28	14
Oct	8, 22	26	12
Nov	5, 19	23	9
Dec	3, 17, 31	21	7

- **Glass** is not kerbside — please take bottles and jars to the **bottle bank in the Sollas Co-op car park or at Lochmaddy Museum (HS6 5AA)**.
 - Rinse containers before they go in the recycling.
 - Don't over-fill bins — the Uist wind will scatter the contents across North Uist.
 - If you miss a collection it's not the end of the world — leave the bag tied inside the bin and we'll catch the next one.
-

10. Fire safety

- **Interlinked smoke alarms** in hallway, sitting room, upstairs bedroom. **Heat alarm** in kitchen. **CO monitor** in kitchen (near the oil boiler). They all talk to each other — if one goes off, they all go off.
- **Fire extinguisher:** Firexo 2 L — in the kitchen.
- **Fire blanket:** 1.2 × 1.2 m — in the kitchen.
- **Escape routes:**
 - Ground floor: front door (onto the road) or rear door (into the garden). Both have keyless internal turn-locks — you can always get out without needing a key.
 - Upstairs: out onto the landing, down the stairs, out. There is also a **Velux fire-escape ladder** stored in the upstairs bathroom as a backup.
- **If there is a fire:**

1. Get everyone out of the house.
 2. Close doors behind you if safe to do so.
 3. Call **999** once you're outside.
 4. Don't go back in for anything.
-

11. Emergencies

Situation	Call
Immediate danger (fire, medical, crime, coastguard)	999
Non-urgent NHS medical advice	111 (NHS 24)
Local GP	North Uist Medical Practice , The Surgery, Lochmaddy, HS6 5AE — 01876 500 333 (Mon–Fri 9am–6pm; closed weekends)
Nearest hospital	Uist & Barra Hospital , Balivanich, Benbecula, HS7 5LA — 01870 603 603 . Handles GP acute, midwifery-led maternity, and A&E triage with an on-call doctor. For serious emergencies call 999 — the ambulance service will route you (major trauma goes to Western Isles Hospital, Stornoway).
Pharmacy / prescriptions	There is no standalone pharmacy on North Uist . The North Uist Medical Practice in Lochmaddy (01876 500 333) is a dispensing practice and will fulfil prescriptions directly. For basic over-the-counter items (paracetamol, plasters, etc.) try Sollas Co-op or Bayhead Stores — both stock OTC basics.
Vet	Southern Isles Veterinary Practice (SIVP Ltd), Creagorry, Benbecula, HS7 5PG — 01870 602 262 . Mixed-animal practice; the nearest vet to Mission House (near Balivanich hospital).
Power cut	105 (national power-cut number)
Water emergency	Scottish Water — 0800 0778 778
Joe (property owner)	+44 7356 232077 (also in Compulsory information, above)
Amy (local contact, Sollas)	+44 7411 114 931 (also in Compulsory information, above)
Kevin (local contact, Sollas)	+44 7789 564695 (also in Compulsory information, above)

12. Things to do

The Vallay crossing

At low tide you can walk across the firm tidal sand to **Vallay**, an uninhabited island with pristine beaches, nesting seabirds, and the haunting ruins of a Victorian mansion.

Critical: check the tide times before you go. The tide comes in *fast* across the sands, and the causeway is impassable around high tide. Aim to be back on the Mission House side at least an hour before high tide. Wear boots or wellies (there are shallow channels you'll cross ankle-deep).

- **Tide times:** [tidetimes.org.uk](https://www.tidetimes.org.uk) — simple, free, bookmarkable. Backup: [Admiralty EasyTide](#) (UK Hydrographic Office). Look up **Lochmaddy** — Vallay's tides run on the same cycle.
- The crossing takes about 30–40 minutes each way. Take water, snacks, a waterproof.

Beaches

North Uist has some of the best beaches in Britain. A few favourites within easy reach:

- **Traigh Iar / Traigh Ear (Grenitote)** — twin beaches either side of the Udal Peninsula, a few minutes east of the house. Park at the small car park at Grenitote ([scans.homelands.generated in What3Words](#)) or use the area beyond the two gates for the other beaches ([bells.quote.constrain](#)). Incredible on a calm day.
- **West Beach, Berneray** — voted one of the best beaches in the world. Over the causeway to Berneray, ([ladder.handover.range](#)) about 25 minutes by car.
- **Clachan Sands** — signposted from the main road just east of Sollas. Follow the side road past the cemetery and park just before the campsite; the beach is a short walk on from there.
- **Hosta Beach** — west coast, good for surfing and sunsets.
- **Scolpaig** — west coast, with a small Victorian folly tower visible across the inlet.

Swimming: the sea is cold year-round (10–14 °C in summer) and there are strong currents on the west coast. If you're swimming, pick a sheltered east-coast bay and stay within your depth.

RSPB Balranald

A reserve on the west coast, about 20 minutes' drive. Corncrakes (spring/summer), waders, great machair flowers in June/July. Small visitor centre, circular walk.

Wildlife

- **Sea eagles and golden eagles** — spotted regularly around the Udal peninsula.
- **Otters** — dawn and dusk along the tidal edges, especially on calm days.
- **Dolphins** — occasional from the shore.
- **Seals** — common on the skerries.
- **Corncrakes** — late spring / early summer, listen on still evenings near the machair.

Walks & archaeology

- **Udal Peninsula** — from the house, walk north along the coast. Multi-period archaeology, deserted township, huge skies.
- **Barpa Langass** — Neolithic chambered cairn, you can crawl inside. Near Lochmaddy.
- **Pobull Fhinn stone circle** — next to Barpa Langass, fifteen-minute walk round the loch.
- **Dun an Sticir** — Iron Age dun on a small island in a loch, reached by a stone causeway. Near Newton Ferry.
- **Scolpaig Tower** — Victorian folly on a rocky islet. West coast.

Cycling

North Uist roads are quiet, mostly flat, and scenic. The loop around the island is a good day's ride. If you want to hire bikes, search online for current Uist operators — we don't have a current recommendation.

Boating and water sports

- **Lady Anne Wildlife Cruises** (skipper Nick) — 2-hour wildlife cruises out of **Kallin Harbour, Grimsay**, east of the causeway to Benbecula. Coast of Uist and Benbecula: seals, otters, sea eagles, summer cetaceans. ladyannewildlifecruises.co.uk.
 - **Uist Sea Tours** (skipper David Steele) — based at **Lochboisdale, South Uist**; 12-seater RIB *Karleen Belle*. Trips around South Uist, Eriskay and the Sound of Barra, plus longer runs to Mingulay, the Monach Isles and St Kilda. uistseatours.co.uk.
 - **Kayaking, paddleboarding** — no dedicated hire on North Uist that I know of; most visitors bring their own.
-

13. Eating out & drinking

North Uist is not a restaurant-dense island — but what there is, is honest, hearty, and uses local produce. **Book ahead** for dinner, especially in summer and on Saturdays. Most places are shut on **Sundays** (Sabbath observance is still strong on the island).

Place	Where	Notes
The Wee Cottage Kitchen	Malaclete, Sollas — right on your doorstep	Family-run catering trailer overlooking Vallay Strand. Breakfast rolls, barista coffee, home baking, soup and sandwiches, fresh seafood specials. Seasonal — check opening hours via Facebook (The Wee Cottage Kitchen) or 07485 781 427.
Langass Lodge	Locheport (25–30 min)	Hotel + restaurant — the best dining on the island . Daily-changing menu built from what's been foraged, dived and hunted locally; strong on seafood and venison. Booking essential. Near Barpa Langass — combine with a walk.
Westford Inn	Claddach Kirkibost (20 min, over the Committee Road)	Traditional island pub — great atmosphere, good food, a drink at the bar. The drive over the Committee Road is half the fun — single-track across the moorland.
Taigh Chearsabhagh café & museum	Lochmaddy	Arts centre café — soups, sandwiches, cake. Lunch only. Worth combining with the gallery.
Berneray Bistro / Lobster Pot	Berneray	Seasonal. Best to book ahead.

Please tell us which ones you loved and which ones have closed — this list will only get better with guest feedback.

14. Shops & groceries

Shop	Where	Notes
Co-op Sollas	5 minutes from Mission House	Nearest shop. Bread, milk, veg, basics, some meat. Reasonable range.
MacLennan's Supermarket	Balivanich, Benbecula (30 min)	Largest supermarket on the Uists. Do a big shop here on arrival if you're flying into Benbecula or have a long list.
Co-op Balivanich	Benbecula (30 min)	Co-op supermarket — handy top-up, broader range than Co-op Sollas.
Ardmaree Stores	Berneray	Small village shop on Berneray.
Bayhead Stores	Bayhead (20 min)	Has petrol.
Craigards Stores	Lochmaddy (25 min)	Convenience + petrol.
Namara Seafoods	Killin	Cafe and seafood to buy.
Hebridean Smokehouse	Clachan (25 min)	Peat-smoked salmon, scallops, trout. Worth a detour — a proper local speciality.

Fresh seafood

Local fishermen sometimes sell **lobster, crab and langoustines** directly — ask at the Co-op or keep an eye out for hand-written signs at the end of driveways.

15. Services

Service	Where	Notes
Petrol stations	Bayhead Stores (20 min) — nearest; Lochmaddy (Craigards); Balivanich	Keep an eye on the tank — stations are few and closed on Sundays.
Post offices	Sollas, Lochmaddy, Balivanich	Opening hours vary, typically mornings only in small branches.
ATM / cash	Co-op Sollas has a card payment (no ATM); nearest ATMs at Lochmaddy / Balivanich. Cashback is usually available.	
Public toilets	Lochmaddy, Berneray, RSPB Balranald, most larger car parks.	

16. Certificates

Copies of the following safety and compliance certificates are kept in the **file near the dining table** and are available on request:

- **EICR** (Electrical Installation Condition Report) — NC-EC, 22 Aug 2025, valid 5 years
- **PAT** (Portable Appliance Testing) — NC-EC, 29 Aug 2025
- **EPC** (Energy Performance Certificate) — Elmhurst, 5 Jun 2023
- **Fire Risk Assessment**
- **Legionella Risk Assessment**
- **Public liability and buildings insurance schedule** — Great Lakes Insurance UK, £5 million PL via Towergate

There is no gas supply at Mission House — heating and hot water are oil-fired, so no gas safety certificate applies.

17. Getting around

- **Your own car** is by far the easiest. Roads are single-track in many places — use the **passing places** (small lay-bys on alternating sides). Give way to traffic coming uphill or round a blind bend. **Always pull into the nearest passing place to let faster cars past; don't drive into the passing place on the other side.**
 - **Taxi:** a handful of operators cover the Uists. Numbers can change, so a quick call ahead is wise:
 - **DMI Taxi** — Uist-wide, advertised as 24/7; find current contact via VisitOuterHebrides.co.uk or search “DMI Taxi Uist”.
 - **WMV (Willie McVicar) Motor Hire**, Liniclate, Benbecula — **01870 603 197**.
 - **NC Buchanan**, Creagorry, Benbecula — **01870 602 455**.
 - **Tam's Taxi**, Lochboisdale / Balivanich — **07717 862 999**.
 - **Berneray** → **Leverburgh (Harris)** ferry: small CalMac ferry across the Sound of Harris.
 - **Car hire:** at Benbecula Airport and occasionally Stornoway. Book well in advance for summer.
-

18. Weather & the sea

- The Hebrides have their own weather, and it changes fast. A bright sunny morning can turn to horizontal rain and back again by lunch. **Pack layers** — waterproofs, warm tops, sun cream, midge repellent (summer).
 - **Ferry cancellations** are a fact of life here, especially October–March. Check the CalMac website / app for live status. If you're travelling the day of a Force 7+ southerly, expect disruption. This is a good reason to have good travel insurance.
 - **Midges** are most active on warm still evenings June–September, mainly in sheltered spots. The coastal wind keeps the worst at bay. We don't keep repellent at the house — pick up **Smidge** or **Avon Skin So Soft** at the Sollas Co-op or Bayhead Stores when you arrive.
-

19. Respect & etiquette

- **Sundays** are still observed on North Uist. Expect shops, pubs and petrol stations to be closed. Some walks pass churches — please be quiet during services.

- **Gates:** if you open one, close it. Crofters' livestock may be behind it.
 - **Cattle and sheep on the road** — slow down, let them move, don't honk.
 - **Litter:** everything out, everything back. There are very few bins on beaches or at trailheads.
 - **Dark skies:** North Uist has some of the darkest skies in the UK. Try stepping outside late on a clear night — Milky Way, occasional Northern Lights in winter.
-

20. Mobile signal

Mobile coverage on the Uists is variable and depends a lot on your network and where you're standing — it can be perfectly fine outside and patchy indoors. We haven't yet tested each UK network at Mission House, so we can't promise which ones work well here.

If your signal is weak indoors, turn on **Wi-Fi calling** in your phone settings — it routes calls and texts over the house Wi-Fi and works with most UK networks.

21. Feedback

If something's missing, broken, unclear, or just wrong in this handbook — please tell us. We'd love this to get better with every stay.

You can: - Write in the **guestbook** (by the dining table) - Email us at rental@missionhouse.co.uk
- Text Amy (our local contact, lives in Sollas) — number on the file front page.

Thank you. Have a wonderful time.

— Joe and the Mission House team

22. Handbook maintenance

This section is for Joe, not guests — strip it out of the printed file version.

Fact-check items still open (before first guest 9 May 2026)

All FACT-CHECK and (to add) markers above. Grouped:

Operational basics - [x] ~~Wifi SSID + password~~ — confirmed against BT Hub label 25 Apr 2026: SSID BT-5PF9Z3, password MHKUxTKya3NEG9. QR cards built (A6 + A4 top-left). - [x] ~~Bin collection day and waste/recycling setup~~ — 2026 schedule from Comhairle nan Eilean Siar card added 25 Apr 2026: residual fortnightly Thu, paper monthly Mon, plastic monthly Mon (offset). Out the night before. - [x] ~~Check-in / check-out times~~ — confirmed 25 Apr 2026: in 4 pm, out 10 am. - [x] ~~Key handover mechanism~~ — confirmed 25 Apr 2026: lockbox at front door, code **1601**, return key to same lockbox on departure. - [x] ~~Heating thermostat exact location~~ — confirmed 25 Apr 2026: hallway, near the front door. - [x] ~~Utility room / washing machine location~~ — confirmed 25 Apr 2026: no utility room; Bosch washer-dryer is in the kitchen. - [x] ~~Kitchen manuals drawer~~ — confirmed 25 Apr 2026: manufacturer manuals sit on top of each appliance, where available. Quick guides remain in the file near the dining table. - [x] ~~Firewood location~~ — confirmed 25 Apr 2026: beside the log burner. Guests asked to leave the fire set ready for the next stay.

Local intel - [] Restaurants — confirm which are still open 2026 season (Hamersay House, Langass Lodge, Tigh Dearg, Westford Inn, Stepping Stone, Taigh Chearsabhagh) - [] West-coast café currently open - [] Berneray eating (Bistro / Lobster Pot) - [] Shops — Craigards Lochmaddy, Bayhead Stores, Ardmaree, butcher - [] Local seafood suppliers (Angus Macintosh the fisherman? — see People.md) - [] Petrol / ATM / post office hours - [] GP surgery name and number (Griminish?) - [] Pharmacy location - [] Vet - [] Mobile signal by network (easiest: ask on first visit, test each SIM) - [] Tide-times source to recommend - [] Bike hire (Rothan Cycles) status - [] Boat tours (Uist Sea Tours) status

Nice-to-have (v2) - Photo of the Hive thermostat with labelled dial - Photo of each wood burner with the air vent pointed out - A simple map of the island with pins for key places - Short “ferry arrival day” route diagram Uig → Lochmaddy → Mission House
